

SOURCE SELECTION INFORMATION

(See FAR 3.104)

The attached document contains "source selection information" as defined in FAR 3.104. **This Material should be physically safeguarded and kept under locked conditions when not in use.** Further, if it is necessary for persons other than those listed on the attached to review this document, you must provide a listing of such individuals in writing to Code A prior to disclosing the data. In addition, the attached document is not to be provided to contractor personnel for review unless such review is within the scope of work of their contract and release is authorized pursuant to the terms of the contract. Before releasing such data to a contractor, please contact the Code A procurement specialist responsible for the attached document.

THIS COVER SHEET IS NOT TO BE REMOVED FROM THIS DOCUMENT
